

IIT BHU's

E-Summit'22

Ventures of Veracity

8th-10th April

The annual entrepreneurship festival of IIT (BHU) Varanasi

About us

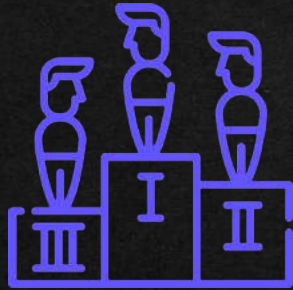

The Entrepreneurship Cell IIT (BHU), Varanasi, is a conglomerate of individuals with a vision, a **dream**. It is a place for all those who shirk from taking beaten paths and believe in leaving trails in all walks of life. The cell aims at manifesting the latent entrepreneurial spirit of young students.

E-Summit is the annual entrepreneurship – oriented flagship event of E-Cell IIT BHU. We provide an excellent platform for the **young** and **aspiring entrepreneurs** to experience the culture of entrepreneurship at IIT BHU.

With a plethora of events, competitions, panel discussions, networking and pitching opportunities, **E-Summit** caters to each and every vertical of our entrepreneurial society.

Events

Shark Tank IIT BHU

Already incubated, well-established startups crave for an opportunity to pitch in front of a panel of investors and venture capitalists. E-Summit provides students a platform, similar to Shark Tank, a pitching event, which will involve persuading the “sharks” to invest hefty amount in their startup!

CasEx-Startup Case Study Competition

An efficient case-study-solving event and a perfect forum to improve problem-solving and analytical abilities of students by tackling real-world challenges. CaseEx aims to promote a spirit of entrepreneurship, creativity, as well as assist students in effectively addressing current issues.

Xpanse – The B-Plan Competition

Xpanse, a momentous competition to help students get into the shoes of an entrepreneur and tackle real-life business problems given by well-established startups. The participants will be provided with a company's background, mission and vision statement to build a business plan for the company.

Ideoscope

An event providing an opportunity to young entrepreneurs and students to pitch their new ideas, gain feedback from domain experts and get the chance to improvise on crucial details.

Entrevia

An entrepreneurship-based online trivia, we give a chance to students to test their knowledge about entrepreneurship through an insightful quiz competition!

Intern Fair

With many startups joining the Indian Unicorn Club, there is a marked rise in employment for the talent pool. We call out all the job seekers to join this ultimate “Intern Fair” and grab themselves a chance to walk in their dreams. Participants would register on our intern portal where recruiters will offer chances to intern for them, based on the task performance by participants.

Applify

Undoubtedly today's world operates on apps. Users are so picky to choose and also, so quick to abandon if they don't enjoy the app. Students would design their best version of an app according to the given problem statements.

Hack-E-Thon

A competition for coding enthusiasts, in this event contestants would bring a tech solution to the business challenges during this event, demonstrating their innovative thinking and technological expertise.

Crypto Trading

Cryptocurrency noted a spectacular rise and popularity in India, particularly amongst the younger cohort. Our goal is to familiarise participants with crypto trading and provide exposure without risking any real money. Participants will be able to take mock crypto trading and analyze their skills on a virtual platform.

UXplore

First impressions never get second chances. Therefore, it is seminal for having an eye-catching and easy-to-use web design that can reach the user, surpassing the rivals. Students would work on cool design features and interactive interfaces from the user's perspective for the given problem statements.
